HAND MADE LEATHER BAGS

MADE BY: **YOU**

Based in Pretoria

This is your invitation to experience the merging of form and function, by embracing your own creativity.

Our courses aim to introduce you to the uplifting sense of pride and accomplishment that comes from designing your own custom leather products and seeing the idea through to fruition.

By taking one of our courses you will become acquainted with the variety of leather that is available and get to know the tools as well as the different stitches. This will result in you taking home your own unique leather creation to be envied by all.

Our courses are entirely practical and in addition to being taught you will be guided and encouraged throughout the process of making your own hand made leather bag.

Upon completion students will know how to:

Design a pattern, cut leather confidently, utilize the tools, preparing the project for hand stitching and know which leathers and stitching techniques to use for the desired result and have made a bag to be proud of.
